

AWARDED GRANTS

The Open Society Foundations work to build vibrant and inclusive democracies whose governments are accountable to their citizens. The vast majority of the grants made by Open Society are to organizations, but we also award a limited number of grants to individuals through fellowships offered across a number of different programs.

VOICES

Read the latest from our staff, grantees, and partners about how we're working around the world to build vibrant and inclusive democracies whose governments are

HOW WE FUND

Every year the Open Society Foundations give thousands of grants to groups and individuals that work on the issues we focus on—promoting tolerance, transparency,

accountable and open to the participation of all people.
